

TERPS RACING Sponsorship Opportunities

Even with the best combination of student dedication and drive, Terps Racing's success would not be possible without the continued generosity and support of our sponsors. The team depends on donations from individuals and corporations to continue our tradition of success.

At the University of Maryland, Terps Racing is one of the most popular and competitive student projects in both the Department of Mechanical Engineering and the A. James Clark School of Engineering. Students are engaged through hands-on experience, team-building, collaboration, and much more. Through the design, build, and testing process, students gain experience in three dimensional computer aided design (CAD) modeling, finite element analysis (FEA), computational fluid dynamics (CFD), design analysis and testing, and leadership skills

Established in 1982, Terps Racing has participated in over 60 races, and the team has consistently placed in the top ten in the Formula SAE World Rankings.

This makes the University of Maryland one of the elite Formula SAE schools.

The University of Maryland Formula SAE team believes that excellence is achieved through a combination of hard work, ambition, teamwork, professionalism, and the resolve to win.

To learn more about how you can support the Terps Racing team and its students at Maryland, contact:
